

CHOOSE THE NATURAL ADVANTAGES!

Try our light stable natural colorants for cheese powder. BioColor has developed special blends of natural colors to substitute artificial yellows.

There is no need to use yellow # 5 or # 6. Our natural color can be added directly to the slurry before spray drying. Try it! There is nothing better than Natural!

These are only a few examples of the solutions we can provide. For further details regarding these or other BioColor natural colorants, please contact us or our agent in your country.

www.spbiogroup.com or www.biocolor-online.com

Always remember to verify local legislation regarding restrictions in the use of these colorants.
